

Recordall® Disc Series Meters

The Preferred Choice for Small to Intermediate Service Applications

You Get It All with the Industry Leader

The Badger® Recordall® family of Disc Series Meters meets or exceeds AWWA C700 and C710 standards and offers many important revenue-generating features.

Disc Series Meters

- Flow Range Flexibility – Delivers precision accuracy in extended flow ranges from 1/8 to 170 GPM.
- Long-Term Field Performance – Lower disc nutation rate reduces chamber wear and extends long-term accuracy.
- NSF listed meters available across the product line.
- Low Pressure Loss – In fact, the lowest in the industry, making it the ideal long-term metering solution.
- Compatible with all Badger meter reading systems offered, as well as other approved technologies.
